

IN THE OLD FIRST CHURCH

with the murmurings of woods and lakes and streams. I can see mountains bursting their surcharged veins of precious metals, overhanging into the open door of mart and mill and mint. I can see the schoolhouse uniting with the golden chain of an enlightened civilization, a free people.

Our country! What a sight it is, our grand and native land!

And as I open my eyes to look once more I can see in the glint of the morning sunshine, fluttering on the breeze of heaven, from every hilltop and home and heart, an emblem—an emblem of liberty and honor—red and white and blue. What is it floating there? you ask.

"The Star Spangled Banner,
That in glory still waves,
O'er this land of the free
And this home of the brave!"

Teachers' Convention

The National Convention of Teachers has been in session at Asbury Park during the week. It is estimated that 40,000 teachers visited the twin cities by the sea—Asbury Park and Ocean Grove—during the session of the convention, and the resources of the two places were taxed to their utmost to find accommodations for the great crowd. The largest thing was on Friday, when President Roosevelt delivered an address before the teachers, and he met with an enthusiastic reception.

Confusion in Street Names.

The joint committee of the Orange Common Council and the East Orange City Council, which will soon get to work upon a plan of having consecutive numbers of lots on streets running through those municipalities, may also invite the West Orange Town Council to join with them so that there may be a uniformity in all the streets from the mountain to the Newark line. At present there is no end of confusion, as is noticed by the numbering on Park avenue and Central avenue. The East Orange numbers end at Park street on the former avenue with 644, and Orange with 285, both meeting at the same place. On Central avenue the last number in East Orange is 589, and Orange 424. In East Orange the even numbers are on the east and north sides and in Orange it is just the reverse. In many of the streets in both cities there is a confusion of the numbers and a stranger coming to the community is put to a great deal of trouble to find the location he is seeking.

There is a similar confusion of street names in this town. There is a Thomas street in the Third Ward and one in the First Ward; a Franklin street in the First Ward and one in the Third Ward and a Franklin avenue in the Second Ward. Baldwin street in the Second Ward, Baldwin place in the First Ward, Myrtle street in the Third Ward, Myrtle avenue in the Second Ward, Myrtle street in the Second Ward and many more instances of confusing similarity in street names might be cited.

Interesting Suit at Law

The Chancery proceedings against the diversion of New Jersey waters to New York have advanced, and an injunction has been granted, which will take the case to the Court of Errors and Appeals for final decision. It is probable the legal contest will be energetically conducted and some new views of the laws regulating the use of streams for water supply will be presented. The courts have been forced to abandon old precedents in this matter in some instances, and there are likely to be more changes before long, notably in regard to the diversion of underground waters. The whole subject is full of curious interest as well as of public importance.

The Erie and the Mountain Tunnel.

The Morristown people are again agitating the creation of a tunnel through Orange mountain for the purpose of shortening the distance between that city and New York. A meeting of prominent citizens was held one day this week and a committee was appointed to go to New York and present a petition to the board of directors of the Erie Railroad, asking that road to complete the tunnel through Orange mountain near Montclair on the line of the Morristown and Erie Railroad. The committee appointed contains the names of many influential business and professional men of Morristown, besides those of the commuter element who reside in that city only because of its local attractions. The members of the committee strongly urge the building of the tunnel, which, they say, will shorten the line of the Morristown and Erie road six miles, by cutting off the loop around Great Notch, and as the line is straighter than the Lackawanna, they claim that faster time can be made, the distance to New York being only twenty-eight miles, as compared with thirty by the Lackawanna. The Erie ferry is also shorter than that to Barclay street, and the managers of the Morristown and Erie say that they can and will land passengers in New York in from fifteen to eighteen minutes less time than is possible over the Lackawanna.

Robert W. McEwan, one of the owners of the Morristown and Erie, has given the names and placed in the hands of the Erie officials to secure the services of experienced railroad management, and he says that if the tunnel project is favorably received the road will be immediately double-tracked and a splendid express service arranged. Mr. McEwan said that it was up to the Erie people to put the tunnel through or turn the charter over to the McEwan brothers.

For Over Sixty Years.

Mrs. Winslow's Soothing Syrup, has been used for over 60 years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain; cures wind colic, and is the best remedy for Diarrhoea. It will relieve the poor little sufferer immediately. Sold by Druggists in every part of the world. Twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind.—Advt.

Carpet Cleaning.

Now is the time to clean carpets. If you want your carpets taken up, cleaned and relaid, send word to D. Douglass, No. 9 Park street, Montclair. Mr. Douglass has had years of experience in carpet cleaning, and has a large patronage in this town, Glen Ridge and Montclair. Those intending to move can have their carpets taken up, cleaned and relaid on short notice. The work will be well and promptly done.—Advt.

Do you remember the little things that gave us so much pleasure when we were young? With what zest did we sit down to the table after our play was over and eat the mush and milk our mother put before us. But as we get older it takes more to give us pleasure. Mush and milk no longer tastes good to us, and our digestion may be impaired. The best advice we can give to such a person is to tone up the stomach with Dr. Pierce's Golden Medical Discovery. It is nature's most valuable and health-giving agent—made without the use of alcohol. It contains roots, herbs and barks, and is the concentration of nature's vitality as found in the fields and woods. This remedy has a history which speaks well for it because it was given to the public by Dr. R. V. Pierce, founder of the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., nearly forty years ago, and has since been sold by druggists in ever increasing quantities. Some medicines, tonics or compounds, enjoy a sale for a few years, then disappear from the public attention, but Dr. Pierce's Golden Medical Discovery has proved such a reliable blood remedy and tonic that it often enjoys the confidence of several generations in a family, and its increased sales year by year coming from the recommendations of those who have tried it, prove its lasting merit, so that every bottle bears the stamp of public approval. Every other blood maker and tonic for the stomach that we know of contains alcohol, but Dr. Pierce guarantees that his Golden Medical Discovery is contained in his "Medical Discovery."

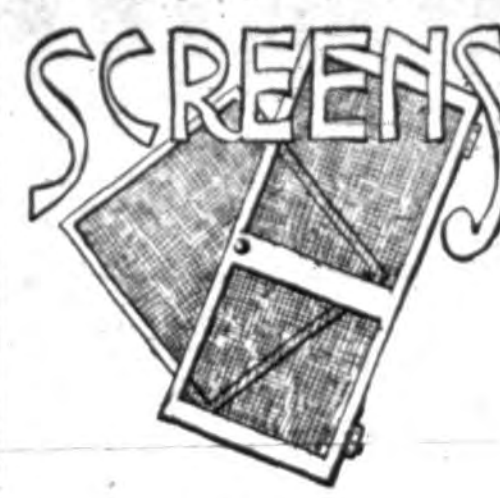

Vacationists Take Notice.
